

CONTRACT #1057-10/23/14

Hauling & Disposal of Stockpiled Leaves

QUESTIONS/ANSWERS FROM CONTRACTORS

Question:

I see a unit price but not an extension for a total amount. Do you want a bid bond on the units or what would be the estimated total?

Answer:

You can use 11,000 yards as an estimate of volume.

Question:

What are the locations of the stockpile areas?

Answer:

There are three stockpile areas:

- 1) City Lot behind the Nye Street Firehouse on Nye Street
- 2) Legion Field on Regan Road
- 3) Church Street between Washington Street and Phoenix Street

Question:

What type of loader you will be using to load the trailers?

Answer:

Either a John Deere 544 or 444

Question:

Is there a set start and end date that the leaves need to be collected? Is there a deadline?

Answer:

We start collecting on November 3rd and are pretty much complete by December 15th. We expect them to be removed as we call. It is not a wait until the end process as we are limited for space. Loading access has been established at all three sites.
